## EXPERIENCE

### At Lowe's, March 2025 - Present

#### Garden Department Supervisor

- Promoted from Sales Floor Associate to Department Supervisor after 18x Employee of the Month recognition, now overseeing the Garden department's daily operations
- Supervise and schedule a team of associates, coordinating coverage and performance across shifts
- Serve as the go-to for product and technical questions on the floor, translating customer needs into solutions
- Operate forklifts to manage inventory movement and logistics safely

### At Geek Squad, Oct 2024 - Feb 2025

#### ARA: Advanced Repair Agent / CA: Counter Agent

- Diagnosed and resolved hardware, software, and connectivity issues across laptops, desktops, and mobile devices
- Worked the counter managing device intake and tracking service tickets end to end
- Guided customers through repairs and options in clear, non-technical language
- Recognized as Employee of the Month for consistent performance and teamwork

### At St Symphorosa School, May 2023 - Oct 2023

#### STEM Educator

- Taught middle school students CAD modeling, 3D printing, and engineering fundamentals
- Guided students through designing and prototyping their own projects
- Maintained classroom technology and 3D printing equipment
- Designed the course like a college class, slides, example videos, and a Shark Tank-style pitch to close out each session

## EDUCATION

**2024** Information Systems BS  
**2028** Depaul University

## EXPERTISE

- **Languages:** C, C#, Python, JavaScript, SQL, R, Swift, Bash, React Native, Android Development, iOS Development, Godot, WebdevHTML, CSS, JavaScript, jQuery, WordPress
- **Cybersecurity:** Network Security, Risk Assessment, CIA Triad, AAA Framework, NIST SP 800-30, Vulnerability Analysis
- **Systems/Infrastructure:** Linux Administration, Windows Administration, Bash Scripting, Docker, Proxmox, Virtualization, VPN Configuration, Cloudflare, Git, System Monitoring
- **Hardware & Embedded Systems:** PCB Design, ESP32, Microcontroller Programming, Firmware Development, SPI/I2C, Circuit Debugging
- **IT & Technical Support:** Hardware Diagnostics, Software Troubleshooting, Technical Support, Ticketing Systems, Help Desk Support
- **Design/Creative Tools:** Figma, Adobe Photoshop, Canva, Blender, UI/UX Design, CAD Software, 3D Printing, CNC Machining
- **Leadership:** Team Supervision, Scheduling, Curriculum Development, Project Management

## PROJECTS BY ME

#### Home Lab

Self-hosted a personal server stack on Proxmox, Docker services including Nextcloud, Vaultwarden, across a ThinkCentre and Raspberry Pi nodes.

#### Personal Site & Projects

Designed and built a personal portfolio sites WordPress blog (Queued) and DePaul class project pages documenting builds

#### ESP32 Voice Communication Device

Built a breadboard device using an ESP32, mic, and speaker, integrating a text-to-speech API over WiFi for two-way voice messaging.

#### CNC "Kotatsu" Table

Designed and machined a custom Japanese-inspired low table from digital model to finished piece using CNC toolpaths.

#### Daft Punk Helmet Replica

Modeled a Thomas Bangalter helmet in Blender, fabricated through 3D printing and hand finishing, with integrated programmable LEDs.
